Dear All:

We hope to purchase these meds in Colombo and what ever the small financial help you may provide us to purchase these simple life saving meds will go a long way in helping the people in dire need in Jaffna. Thank you.

Also, the three primary health care centers we built are seeing more than 500 patients per week (almost double) due to the displaced people. Also, we're running more and more mobile clinics to the refugee camps. The out-patient care for each patient is still less than US$ 1 per patient. All these services are provided free of charge incl medications.

Please join our monthly contribution scheme to keep this basic health care program alive.

Dear Dr. Rajam Theventhiran,

Thank you for your great effort to help our patients. I spoke to Dr. Peranantharajah today regarding water plant for dialysis unit, he told me that the plant has already been purcased but they are facing some difficulty in transportation. Today I'll pass your message to. Sivajohan. Please find attached the list of items we need.

Dr. Sivansuthan
